Zapplied Platform is a ground breaking and state-of-the-art SaaS enterprise application. It integrates knowledge management and technology with applied innovation. Zapplied has successfully converted its innovative but proven document and deal cycle processes and best practices of Fortune 500 global deal making, repository control and document management and collaboration. Zapplied Platform manages and generates 100% perfectly customized, sophisticated, up-to-date and ready-to-use content, documentation and other corporate memory knowledge while managing the whole process of getting these processed, and executed. Personalized, anywhere, anytime. More with less.

**Imagine you can get rid of the boring stuff, while getting deals done and while staying aligned, in control, and within budget.**
